Automotive Climate Control 116 Years of Progress Gene D. Dickirson 2012 The evolution of automotive climate control systems is told in more than 500 pages including more than 600 pictures. The progress made in heaters, defrosters, air conditioners, ventilation systems and windshield wipers since 1897 is enormous. This book shows how the automobile manufacturers and suppliers have made driving an automobile safe and pleasant in any type of weather. The major changes that have occurred from the early use of lap robes and charcoal heaters to the modern, sophisticated, electronically controlled systems are fully documented in this book.--P. [4] of cover.

It's Delightful! It's Delovely! It's... DeSoto Automobiles Dennis David 2006-11-01 In between DeSoto's introduction in 1928 and its demise in 1961 would come 32 years of wonderful styling, bright colors, and power to spare. DeSotos were billed as "a lot of car for the money" and sales proved it. DeSoto was purely an American effort. One look at the graceful flying lady mascot on the hood of a DeSoto S-11 is all it takes to see that it was a different era - a time in American automotive history that is forever gone. Revisit this era in a concise history of this magnificent marque - illustrated with colorful pictures, period advertising, artist renderings and contemporary black and white factory photos that show the fine details of these beautiful cars.

The Cadillac Story Thomas E. Bonsall 2004 The Cadillac story is more than the story of a car company. It is, in many ways, the story of the American automobile industry itself—which, as much as any industry, drove America's growth in the twentieth century and defined who we are as a people. For generations of Americans, Cadillac epitomized expansive prosperity. This illustrated history of Cadillac presents all the triumphs and failures of the marque's last sixty years; from the good times, through the disastrous 1980s, and up to the current reconstitution of the brand.
