Cataract City Craig Davidson 2014-02-06 Cataract City, a dead-end border town overlooking Niagara Falls. Owen Stuckey and Duncan Diggs are fast friends as kids - united by wrestling, go-karts, and metal bands - but as they grow into young men, their once simple affection competes with the tensions created by their respective circumstances. Owen, born to relative privilege, seems destined to get out of the city, while Duncan, honest but hard, is hurtling along the rails towards a future working the assembly line at the soulless biscuit factory, The Bisk. As Duncan becomes more and more desperate to escape, he finds himself at opposite ends of the law to Owen, and as the coils of the city creep ever tighter around the two friends, they find themselves struggling not to break free, but simply to survive.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to

parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Scandal has rocked the city of London. Colin Eversea, a handsome, reckless unapologetic rogue is sentenced to hang for murder and, inconveniently for him, the only witness to the crime disappears. Cool-headed, daring Madeleine Greenway is immune to Colin's vaunted charm. Her mission is not to rescue Colin but to kidnap him, and to be paid handsomely for it. But when it becomes clear that whoever wants Colin alive wants Madeline dead, the two become uneasy allies in a deadly race for truth.

Together, they'll face great danger—and a passion neither can resist.

Learning from Loss Brittany R. Collins 2021-11-02

Bouvard and Pécuchet Illustrated Gustave Flaubert 2021-01-24 Nowhere do Flaubert's explorations of the relation of signs to the objects they signify reach a more thorough study than in this work. Bouvard and Pécuchet systematically confuse signs and symbols with reality, an assumption that causes them much suffering, as it does for Emma Bovary and Frédéric Moreau. Yet here, due to

the explicit focus on books and knowledge, Flaubert's ideas reach a climax. Consequently, the book is widely read as a precursor to modern theories on semiotics and postmodernism. The relentless failure of Bouvard and Pécuchet to learn anything from their adventures raises the question of what is knowable. Whenever they achieve some small measure of success (a rare occurrence), it is the result of unknown external forces beyond their comprehension. In this sense, they strongly resemble Antony in *The Temptation of St. Anthony*, a work that addresses similar epistemological themes as they relate to classical literature. Lionel Trilling wrote that the novel expresses a belief in the alienation of human thought from human experience. The worldview that emerges from the work, one of human beings proceeding relentlessly forward without comprehending the results of their actions or the processes of the world around them, does not seem an optimistic one. But given that Bouvard and Pécuchet do gain some comprehension of humanity's ignorant state (as demonstrated by their composition of the *Dictionary of Received Ideas*), it could be argued that Flaubert allows for the possibility of relative enlightenment.

Brigham Young, *Colonizer of the American West: Diaries and Office Journals, 1832-1871*

George D. Smith 2020-06-30 Examining Brigham Young's legacy requires an understanding of his raw ambition and religious zeal. A formidable leader in both his church and country, Young's abilities coincided with the colonizing zeitgeist of nineteenth-century America. Thus, by 1877, some 400 Mormon settlements spanned the western frontier from Salt Lake City to outposts in Idaho, Nevada, Arizona, Wyoming, and California. As prophet of the LDS Church and governor of the proposed State of Deseret, Young led several campaigns for Utah statehood while defending polygamy and local sovereignty. His skillful and authoritarian leadership led historian Bernard de Voto to classify him as an "American genius," responsible for turning Joseph Smith's visions "into the seed of life." Young's diaries and journals reveal a man dedicated to his church, defensive of his spiritual and temporal claims to authority, and determined to create a modern Zion within the Utah desert. Editor George D. Smith's careful organization and annotation of Young's personal writings provide insights into the mind of Mormonism's dynamic church leader and frontier statesman.

Bucking the Trend Buck Autrey 2016-05-16 Sage ... Pragmatic ... Enduring Buck Autrey doesn't believe in giving up. Nor does the word "failure" enter his vocabulary. That kind of thinking turned a nearly bankrupt business into one of the largest and most respected electrical contracting companies in America today. Since 1966, Buck has navigated Miller Electric through major recessions, feisty unions, stiff competition, and a fast changing industry. As the

electrical industry's stabilizing force during a Justice Department investigation, he literally changed the way the industry does business. No small accomplishment for one starting out as an employee in a skating rink. What are the ingredients of this man's success? Trust, commitment, integrity, hard work. These, along with Buck's genuine care for others and a deep knowledge of the business, are his legacy ... universal ingredients for success. One might add he also had a lot of fun along the way.

Love, Hate and Knowledge Robert Waska 2018-04-17 This book introduces the clinical concept of analytic contact. This is a term that describes the therapeutic method of investigation that makes up psychoanalytic treatment.

The field has been in debate for decades regarding what constitutes psychoanalysis. This usually centers on theoretical ideals regarding analyzability, goals, or procedure and external criteria such as frequency or use of couch. Instead, the concept of analytic contact looks at what takes place with a patient in the clinical situation. Each chapter in this book follows a wide spectrum of cases and clinical situations where hard to reach patients are provided the best opportunity for health and healing through the establishment of analytic contact. This case material closely tracks each patient's phantasies, and transference mechanisms which work to either increase, oppose, embrace, or neutralize, analytic contact. In addition, the fundamental internal conflicts all patients struggle with between love, hate, and knowledge are represented by extensive case reports.

By the Grace of God Tandiwe Ngubane 2019-10-24 Sleeping in abuse...-And we know that in all things (good or bad) God works for the good of those who love him, who have been called according to his purpose. Romans 8:28.-Here is a story of a woman who experienced it all (bad and worse) but through Seventh Day Adventist Church teachings learned that when life threw her lemons, she must pray hard and trust God to help her make the best

lemonade then keep pressing on as the Lord wills. Thandi is a woman who had miscarriages due to the hardships she had to endure in the hands of her fiancé's, the man she believed loved and adore her but turned out to be a serial liar, cheater and abuser in the end she suffered hearing impairment (was declared permanently deaf) then finally found courage not to care what the community would say if she called-off her engagement. Her ears were shutdown but her mind and eyes were wide open to realise she only had to care what God thought about her. She discovered that Singleness was biblically accepted, no-one gets condemned or discarded from the Kingdom of God for being single. After all Jesus our Lord never married. This book aims to educate boys and girls, men and women, young and old it is also meant to raise awareness about the growing deaf community which has been the most neglected society in South Africa such that American sign language was adopted as means of communication even after 25 years of freedom our south African sign language has only just been recognised not mention scarce jobs! sing praise to almighty, loving and caring Jesus Christ who lived then died so I could have the strength to do all things through Him- Philiphians 4:13. The innate qualities of economics, religion and politics have been instilled in me by my heritage and have led me to a life of public service, dedication to my country, to my family and most importantly, to God. As an architect, I have dedicated my life to the betterment of my beloved country. As a public official, I have served many administrations in the advancement of Nigeria's infrastructure and economy, as well as the improvement of regional infrastructure and economy in the West African region, under the aegis of Economic Community of West African States (ECOWAS). My rich heritage was the foundation that has led me down this path which I hope will carry on to future generations.

Courageous Dreaming Alberto Villoldo 2009-03-01 Modern physics tells us that we're dreaming the world into being with every thought. Courageous Dreaming tells us how to dream our world with power and grace. The ancient

shamans of the Americas understood that we're not only creating our experience of the world, but are dreaming up the very nature of reality itself—that is, "life is but a dream." When you don't dream your life, you have to settle for the nightmare being dreamed by others. This book shows how to wake up from the collective nightmare and begin to dream a life of courage and grace, a sacred dream that shamans throughout time have known and served. Alberto Villoldo reveals ancient wisdom teachings that explain how to birth reality from the invisible matrix of creation; and reveals how we can interact with this matrix to dream a life of peace, health, and abundance. He shows us that courage is all that is required to create the joy we desire!
