Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in

a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Emergent Strategy adrienne maree brown 2017-03-20 In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride!

adrienne maree brown, co-editor of Octavia's Brood: Science Fiction from Social Justice Movements, is a social justice facilitator, healer, and doula living in Detroit. Under Western Skies Jennifer Jewell 2021-05-11 "Atkinson and Jewell invite each of us to reimagine one's connection to the land while cultivating nature close to home. A must-read for anyone searching for inspired solutions for designing or refining a garden." —Emily Murphy, founder of Pass the Pistil From windswept deserts to misty seaside hills and verdant valleys, the natural landscapes of the American West offer an astounding variety of climates for gardens. Under Western Skies reveals thirty-six of the most innovative designs—all embracing and celebrating the very soul of the land on which they grow. For the gardeners featured here, nature is the ultimate inspiration rather than something to be dominated, and Under Western Skies shows the strong connection each garden has with its place. Packed with Atkinson's stunning photographs and illuminated by Jewell's deep interest in the relationships between people and the spaces they inhabit, Under Western Skies offers page after page of encouraging ingenuity and inventive design for passionate gardeners who call the West home.

The Enforcement of Morals Patrick Devlin 2010-01-31 Are morals always relative? Are private actions--among consenting adults--always beyond the law? Or are there some behaviors which so weaken a society that common beliefs about right and wrong must be enforced to protect the common good? In opposing the decriminalization of private acts of homosexuality in Britain, Patrick Devlin maintained that not only is it reasonable to allow popular morality to influence lawmaking, it is imperative: ". . . For a society is not something that is kept together physically; it is held by the invisible bonds of common thought." Some sidestep this controversial issue by asserting that the law should not be used to enforce any morality. Others invoke John Stuart Mill's doctrine that the only purpose for laws governing any member of society is to prevent harm to others, chiefly physical harm. But, Devlin argued, while breaches of shared morality do not cause harm to other individuals in the way that murder and assault do, they do harm society by undermining its moral structure. Patrick Devlin (1905-1992) studied history and law at Cambridge University and became a successful lawyer.

Female Performers in British and American Fiction Barbara Straumann 2018-05-22 The female performer with a public voice constitutes a remarkably vibrant theme in British

and American narratives of the long nineteenth century. The tension between fictional female performers and other textual voices can be seen to refigure the cultural debate over the 'voice' of women in aesthetically complex ways. By focusing on singers, actresses, preachers and speakers, this book traces and explores an important tradition of feminine articulation. Drawing on critical approaches in literary studies, gender studies and philosophy, the book conceptualizes voice for the discussion of narrative texts. Examining voice both as a thematic concern and as an aesthetic effect, the individual chapters analyse how the actual articulation by female performers correlates with their cultural visibility and agency. What this study foregrounds is how women characters succeed in making themselves heard even if their voices are silenced in the end.

The Last Cowboys: A Pioneer Family in the New West John Branch 2018-05-15 "A can't-put-it-down modern Western." —Kirk Siegler, NPR Longlisted for the PEN/ESPN Award for Literary Sports Writing The Last Cowboys is Pulitzer Prize-winning reporter John Branch's epic tale of one American family struggling to hold on to the fading vestiges of the Old West. For generations, the Wrights of southern Utah have raised cattle and world-champion saddle-bronc riders—many call them the most successful rodeo family in history. Now they find themselves fighting to save their land and livelihood as the West is transformed by urbanization, battered by drought, and rearranged by public-land disputes. Could rodeo, of all things, be the answer? Written with great lyricism and filled with vivid scenes of heartache and broken bones, The Last Cowboys is a powerful testament to the grit and integrity that fuel the American Dream.

Beyond the Frame N. Tadiar 2005-09-16 Beyond the Frame explores the importance of visual images in the identities and material conditions of women of color as they relate to social power, oppression, and resistance. The goal of the collection is to rethink the category of visual theory through women of color. It also explores the political and social ramifications of visual imagery for women of color, and the political consciousness that can emerge alongside a critical understanding of the impact of visual imagery. The book begins with a general exploration of what it means to develop a women of color criticism (rather than an analysis of women of color), and goes on to look specifically at topics such as 90s fashion advertisements, the politics of cosmetic surgery, and female fans of East LA rock bands.

No More Vietnams Richard M. Nixon 1985 "In writing No More Vietnams, Richard Nixon—with the unique perspective of the man who served us America's commander-in-chief during the war's most difficult stage—has set out to dispel the myths of Vietnam, to show why we failed in Vietnam, and to contribute to the development of policies that will

help avoid such failures in the future. In doing so, President Nixon analyzes the role that four presidents, the military, the Congress, the media, and the antiwar movement played in the Vietnam debacle." -- Front jacket flap

Why Do We Quote? Ruth Finnegan 2011-03-01 Quoting is all around us. But do we really know what it means? How do people actually quote today, and how did our present systems come about? This book brings together a down-to-earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present, the far and the near. Drawing from anthropology, cultural history, folklore, cultural studies, sociolinguistics, literary studies and the ethnography of speaking, Ruth Finnegan's fascinating study sets our present conventions into crosscultural and historical perspective. She traces the curious history of quotation marks, examines the long tradition of quotation collections with their remarkable recycling across the centuries, and explores the uses of quotation in literary, visual and oral traditions. The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation, allusion, authorship, originality and plagiarism .

How Big Is Your God? Paul Coutinho 2011-09-29 Do you have a real relationship with God, or do you just have a religion? Do you know God, or do you just know about God? In *How Big Is Your God?* Paul Coutinho, SJ, challenges us to grow stronger and deeper in our faith and in our relationship with God—a God whose love knows no bounds. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space Is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

The Secret Teachings of All Ages Manly P. Hall 2021-11-11 Originally published in 1928, *The Secret Teachings of All Ages* is Manly P. Hall's celebrated 20th century tome, where readers delight in discussions about ancient symbolism, rituals, and mythology. Manly P. Hall was a Canadian Author of over 150 published works, the best

known of which are Initiates of the Flame, The Story of Healing, The Divine Art, Aliens Magic and Sorcery The Secret Teachings of All Ages, and An Encyclopedic Outline of Masonic, Hermetic, Qabbalistic Rosicrucian Symbolical Philosophy. Symbolism is the language of the Mysteries; in fact it is the language not only of mysticism and philosophy but of all Nature, for every law and power active in universal procedure is manifested to the limited sense perceptions of man through the medium of symbol. Every form existing in the diversified sphere of being is symbolic of the divine activity by which it is produced. By symbols men have ever sought to communicate to each other those thoughts which transcend the limitations of language. This book is often hailed as an encyclopedia for all things hidden, ancient, and arcane, and it explores a vast array of topics, from secret societies and the Zodiac to Mystic Christianity and William Shakespeare's identity. Despite some of the outdated and controversial ideas it poses now in the 21st century, it continues to fascinate students of the cryptic and mysterious. How to Read Literature Terry Eagleton 2013-05-21 DIV A literary master's entertaining guide to reading with deeper insight, better understanding, and greater pleasure /div Mirrors Eduardo Galeano 2009-05-26 Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works "invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism." Mirrors, Galeano's most ambitious project since Memory of Fire, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: "Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??" Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, Mirrors is a magic mosaic of our humanity.

Critique of *Black Reason* Achille Mbembe 2017-02-17 In *Critique of Black Reason* eminent critic Achille Mbembe offers a capacious genealogy of the category of Blackness—from the Atlantic slave trade to the present—to critically reevaluate history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world's center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve as the template for all new forms of exclusion. With *Critique of Black Reason*, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first glimpses of a more just future.

Inherit the Holy Mountain Mark Stoll 2017-09-15 In *Inherit the Holy Mountain*, historian Mark Stoll introduces us to the religious roots of the American environmental movement. Religion, he shows, provided environmentalists both with deeply-embedded moral and cultural ways of viewing the world and with content, direction, and tone for the causes they espoused. Stoll discovers that specific denominational origins corresponded with characteristic sets of ideas about nature and the environment as

well as distinctive aesthetic reactions to nature, as can be seen in key works of art analyzed throughout the book. Stoll also provides insight into the possible future of environmentalism in the United States, concluding with an examination of the current religious scene and what it portends for the future. By debunking the supposed divide between religion and American environmentalism, *Inherit the Holy Mountain* opens up a fundamentally new narrative in environmental studies.

Brooklyn Colm Toibin 2010-04-06 It is Enniscorthy in the southeast of Ireland in the early 1950s. Eilis Lacey is one among many of her generation who cannot find work at home. Thus when a job is offered in America, it is clear to everyone that she must go. Leaving her family and country, Eilis heads for unfamiliar Brooklyn, and to a crowded boarding house where the landlady's intense scrutiny and the small jealousies of her fellow residents only deepen her isolation. Slowly, however, the pain of parting is buried beneath the rhythms of her new life — until she begins to realize that she has found a sort of happiness. As she falls in love, news comes from home that forces her back to Enniscorthy, not to the constrictions of her old life, but to new possibilities which conflict deeply with the life she has left behind in Brooklyn. In the quiet character of Eilis Lacey, Colm Tóibín has created one of fiction's most memorable heroines and in *Brooklyn*, a luminous novel of devastating power. Tóibín demonstrates once again his astonishing range and that he is a true master of nuanced prose, emotional depth, and narrative virtuosity.

Intercourse Andrea Dworkin 2009-09-17 *Intercourse* is a book that moves through the

sexed world of dominance and submission. It moves in descending circles, not in a straight line, and as in a vortex each spiral goes down deeper. Its formal model is Dante's Inferno; its lyrical debt is to Rimbaud; the equality it envisions is rooted in the dreams of women, silent generations, pioneer voices, lone rebels, and masses who agitated, demanded, cried out, broke laws, and even begged. The begging was a substitute for retaliatory violence: doing bodily harm back to those who use or injure you. I want women to be done with begging. The public censure of women as if we are rabid because we speak without apology about the world in which we live is a strategy of threat that usually works. Men often react to women's words - speaking and writing - as if they were acts of violence; sometimes men react to women's words with violence. So we lower our voices. Women whisper. Women apologize. Women shut up. Women trivialize what we know. Women shrink. Women pull back. Most women have experienced enough dominance from men - control, violence, insult, contempt - that no threat seems empty. Intercourse does not say, forgive me and love me. It does not say, I forgive you, I love you. For a woman writer to thrive (or, arguably, to survive) in these current hard times, forgiveness and love must be subtext. No. I say no. Intercourse is search and assertion, passion and fury; and its form - no less than its content - deserves critical scrutiny and respect.---- PREFACE

The Deliberate Dumbing Down of America Charlotte Thomson Iserbyt 1999 In this book you will discover "how good teachers across America have been forced to use controversial, non-academic methodology in their classrooms; how "school choice" is being used to further dangerous reform goals, and how home schooling and private education are especially vulnerable; how workforce training (school-to-work) is an essential part of an overall plan for a global economy, and how this plan will shortcircuit your child's future career plans and opportunities; [and] how the international, national, regional, state and local agendas for education reform are all interconnected and have been for decades. The deliberate dumbing down of America is a chronological history of the past 100+ years of education reform. Each chapter takes a period of history and recounts the significant events, including important geopolitical and societal contextual information. Citations from government plans, policy documents, and key writings by leading reformers record the rise of the modern education reform movement"--Website: <http://www.deliberatedumbingdown.com/book.htm>.

Wounds of Love Frank Graziano 2004-01-15 The Peruvian mystic St. Rose of Lima (Isabel Flores y Oliva, 1586-1617) was canonized in 1671 as the first saint of the New World and remains the object of widespread devotion today. In this engrossing new study, Frank Graziano uses the example of St. Rose to explore the meaning of female mysticism and the way in which saints are products of their cultures. Virginity, austerity, eucharistic devotion, incessant mortification, and mystical marriage to Christ characterized the devotional regimen that structured St. Rose's entire life. Many of her mystical practices echo the symptoms of such modern psychological disorders as masochism, depression, hysteria, and anorexia nervosa. Graziano offers a

sophisticated argument not only for the origins and meaning of these behaviors in Rose's case, but also for the reason her culture venerated them as signs of sanctity. In the process he explores a wide range of themes, from the idea of suffering as an expression of love to the assimilation of childhood trauma through religious repetition. Graziano also offers a penetrating analysis of the politics of Rose's canonization. He finds that her mystical union with God--bypassing the institutional channels of sacrament and priestly mediation--was inherently subversive to the bureaucratized Church. Canonization was a cooptation by which Rose's competing claim to Christ was integrated into the Catholic canon. The book concludes with a fascinating exploration of mystical eroticism, with its intense experiences of vision and ecstasy. The eroticized suffering of many mystics is shown to be very human in origin: the mystic's wounded love is projected onto a God conceived to accommodate it. *Wounds of Love* is based on a decade of research in archives, rare books, and an extraordinary range of secondary sources. Introducing an innovative method that integrates history, cultural studies, psychoanalysis, and clinical psychology, this compelling work offers a bold new interpretation of female mysticism.

Slave Portraiture in the Atlantic World Agnes Lugo-Ortiz 2013-09-30 *Slave Portraiture in the Atlantic World* is the first book to focus on the individualized portrayal of enslaved people from the time of Europe's full engagement with plantation slavery in the late sixteenth century to its final official abolition in Brazil in 1888. While this period saw the emergence of portraiture as a major field of representation in Western art, 'slave' and 'portraiture' as categories appear to be mutually exclusive. On the one hand, the logic of chattel slavery sought to render the slave's body as an instrument for production, as the site of a non-subject. Portraiture, on the contrary, privileged the face as the primary visual matrix for the representation of a distinct individuality. Essays address this apparent paradox of 'slave portraits' from a variety of interdisciplinary perspectives, probing the historical conditions that made the creation of such rare and enigmatic objects possible and exploring their implications for a more complex understanding of power relations under slavery.

Dierker selects twenty-five players for *My Team* and another twenty-five for the opposition, the Underdogs, or "Dogs." There are two players at each position, five starting pitchers, and four relievers. (When your starters are the likes of Roger Clemens, Greg Maddux, Bob Gibson, Tom Seaver, Nolan Ryan, and Juan Marichal, you don't worry about bullpen depth.) All are players that Dierker has played with or against or watched in his years as player, coach, manager, and commentator. Each athlete must have played at least ten years in the major leagues to qualify, and players are judged on their ten best seasons. Leadership skills and personality -- critical components of team chemistry -- are highly valued. So how is it possible to select two teams composed of outstanding ballplayers from the past forty years and not have room for Sandy Koufax, Reggie Jackson, Carl Yastrzemski, or Cal Ripken Jr.? Dierker explains his choices, analyzing each position carefully, always putting the team ahead of the individual player. He provides statistics

to back up his selections, and often relates personal anecdotes about the players. (From his first All-Star Game in 1969, Dierker offers a wonderful anecdote about Hank Aaron, by then an All-Star veteran.) My Team may start more debates than it settles, but Dierker's insights, and his passion for the game, will enlighten and fascinate true baseball fans.
