Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

The Magical Treatise of Solomon, Or Hygromanteia Ioannis Marathakis 2012 The Magical Treatise of Solomon, or Hygromanteia is the ultimate grimoire — the absolute foundation of ceremonial magic. The true source of the Key of Solomon, it is arguably the most significant magical text in the world. For the first time ever, this extraordinary work has been translated from the original Greek into English, allowing magic scholars worldwide to finally access its treasures. The translator, Ioannis Marathakis, is a native born Greek academic with an extensive knowledge of ceremonial magic. Unlike the abridged Latin translation, this groundbreaking work is the complete text, now arranged in its proper order.

Protecting Children Against Corporal Punishment Monika Sajkowska 2004 Research has shown that the vast majority of children throughout Europe have experienced some form of corporal punishment. This publication considers how to raise public awareness against the use of corporal punishment, drawing on case studies of three successful public education campaigns in the UK, Poland and the United States. Issues considered include how to plan a campaign, target groups, and conducting media campaigns and local activities. It also includes three model questionnaires aimed at support services for children and families, for children and for professionals.

The Political Economy of Peripheral Growth José Miguel Ahumada 2019-03-23 This book provides a political economy perspective on Chile's contemporary economic development, explaining the different stages of Chile's neoliberal pattern

of economic integration into the global economy from 1973 to 2015. Three key explanatory variables are considered: the evolution of business-state relations, US geopolitical interest in the region through the waves of trade agreements, and the political impact of the dynamics of inflows and outflows of financial capital. Although Chile is typically considered to be a successful case of a free market economy, this book presents an alternative narrative of Chile's growth through using a Latin American Structuralist political economy perspective. While it recognises the positive results in terms of growth, it also emphasises the lack of dynamic sources for long-term development, which embeds the economy into short-term booms followed by periods of stagnation.
