Tappan's Handbook of Massage Therapy Patricia J. Benjamin 2015-03-26 For introduction to massage therapy or massage techniques/modalities courses Prepare massage therapists for success with a next-generation learning tool Successful massage therapists excel at blending the art and science of the profession. Tappan's Handbook of Massage Therapy: Blending Art and Science is a learning tool for a new generation, but it results from years of experience, wisdom, and research on the part of the author and contributing therapists. This pioneering book in massage therapy provides the foundation, guidance, and the know-how that students need to master the essential task of blending art with science. The new Sixth Edition is an all-inclusive text for massage therapy students that moves beyond technique to encompass expanded foundational learning and professional and personal development, massage techniques, and career and practice development. With its logical format and compelling visuals, students will gain practical knowledge of the techniques and skills they need to become outstanding massage therapists. Also available with MyHealthProfessionsLab(TM) This title is also available with MyHealthProfessionsLab--an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn and test their understanding to help them better absorb course material and understand difficult concepts. NOTE: You are purchasing a standalone product; MyHealthProfessionsLab does not come packaged with this content. If you would like to purchase both the physical text and MyHealthProfessionsLab search for ISBN-10: 0134071867 /ISBN-13: 9780134071862. Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Life 1943-10

MADISON AVENUE, OHIO, 1970- Wallace J. Gordon 2010-06-04 All the best ads and commercials are written in high-powered advertising agencies in New York City, right? In fancy offices perched high on the gleaming towers of Manhattan, right? By mythical creatures just returning from three martini lunches, right? Wrong, wrong, wrong. And once more, just for good measure. Once upon a time I was fired. Again. I'd been writing ads for agencies in Chicago, Detroit, Minneapolis and New York. For almost twenty years. Then one day I found myself writing them in the sometimes sleepy, sometimes far from sleepy little city of Marion, Ohio. How I got there, what I did there, and all the rest of it makes a rather interesting story. At least to me. Although Gertrude Stein famously said, "There's no there there," don't believe it for a minute. She sure wasn't talking about Marion, Ohio. Read on, gentle reader, read on...

The Buying Guide 2004 2003-11 The editors of Consumer Reports rate a wide range of consumer items, in an updated buying guide for new products, which includes advice on how to purchase kitchen items, automobiles, entertainment products, and home office equipment, along with more than eight hundred product ratings, brand repair histories, and other helpful features.
