Today, however, punishing rents and the increasingly prohibitive cost of ownership have turned housing into the foremost symbol of inequality and an economy gone wrong. Nowhere is this more visible than in the San Francisco Bay Area, where fleets of private buses ferry software engineers past the tarp-and-plywood shanties of the homeless. The adage that California is a glimpse of the nation's future has become a cautionary tale. With propulsive storytelling and ground-level reporting, New York Times journalist Conor Dougherty chronicles America's housing crisis from its West Coast epicenter, peeling back the decades of history and economic forces that brought us here and taking readers inside the activist movements that have risen in tandem with housing costs.

The Song of Names Norman Lebrecht 2007-12-18 Martin Simmonds' father tells him, "Never trust a musician when he speaks about love." The advice comes too late. Martin already loves Dovidl Rapoport, an eerily gifted Polish violin prodigy whose parents left him in the Simmonds's care before they perished in the Holocaust. For a time the two boys are closer than brothers. But on the day he is to make his official debut, Dovidl disappears. Only 40 years later does Martin get his first clue about what happened to him. In this ravishing novel of music and suspense, Norman Lebrecht unravels the strands of love, envy and exploitation that knot geniuses to their admirers. In doing so he also evokes the fragile bubble of Jewish life in prewar London; the fearful carnival of the Blitz, and the gray new world that emerged from its ashes. Bristling with ideas, lambent with feeling, The Song of Names is a masterful work of the imagination.

The End of Men Christina Sweeney-Baird 2021-04-27 "The End of Men is a fiercely intelligent page-turner, an eerily prescient novel, at once thoughtful and highly emotive." --Paula Hawkins, #1 internationally bestselling author of The Girl on the Train Set in a world where a virus stalks our male population, The End of Men is an electrifying and unforgettable debut from a remarkable new talent that asks: what would our world truly look like without men? Only men carry the virus. Only women can save us all. The year is 2025, and a mysterious virus has broken out in Scotland--a lethal illness that seems to affect only men. When Dr. Amanda MacLean reports this phenomenon, she is dismissed as hysterical. By the time her warning is heeded, it is too late. The virus becomes a global pandemic--and a political one. The victims are all men. The world becomes alien--a women's world. What follows is the immersive account of the women who have been left to deal with the virus's consequences, told through first-person narratives. Dr. MacLean; Catherine, a social historian determined to document the human stories behind the "male plague"; intelligence analyst Dawn, tasked with helping the government forge a new society; and Elizabeth, one of many scientists desperately working to develop a vaccine. Through these women and others, we see the uncountable ways the absence of men has changed society, from the personal--the loss of husbands and sons--to the political--the changes in the workforce, fertility, and the meaning of family. In The End of Men, Christina Sweeney-Baird turns the unimaginable into the unforgettable.

The Quality of Mercy Barry Unsworth 2012-01-10 Barry Unsworth returns to the terrain of his Booker Prize-winning novel Sacred Hunger, this time following Sullivan, the Irish fiddler, and Erasmus Kemp, son of a Liverpool slave ship owner who hanged himself. It is the spring of 1767, and to avenge his father's death, Erasmus Kemp has had the rebellious sailors of his father's ship, including Sullivan, brought back to London to stand trial on charges of mutiny and piracy. But as the novel opens, a blithe Sullivan has escaped and is making his way on foot to the north of England, stealing as he goes and sleeping where he can. His destination is Thorpe in the East Durham coalfields, where his dead shipmate, Billy Blair, lived: he has pledged to tell the family how Billy met his end. In this village, Billy's sister, Nan, and her miner husband, James Bordon, live with their three sons, all destined to follow their father down the pit. The youngest, only seven, is enjoying his last summer aboveground. Meanwhile, in London, a passionate anti-slavery campaigner, Frederick Ashton, gets involved in a second case relating to the lost ship. Erasmus Kemp wants compensation for the cargo of sick slaves who were thrown overboard to drown, and Ashton is representing the insurers who dispute his claim. Despite their polarized views on slavery, Ashton's beautiful sister, Jane, encounters Erasmus Kemp and finds herself powerfully attracted to him. Lord Spenton, who owns coal mines in East-Durham, has extravagant habits and is pressed for money. When he applies to the Kemp merchant bank for a loan, Erasmus sees a business opportunity of the kind he has long been hoping for, a way of gaining entry into Britain's rapidly developing and highly profitable coal and steel industries. Thus he too makes his way north, to the very same village that Sullivan is heading for . . . With historical sweep and deep pathos, Unsworth explores the struggles of the powerless and the captive against the rich and the powerful, and what weight mercy may t

Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the familyâ€"which includes all primary caregiversâ€"are at the foundation of children's well- being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services.
