Turning Jessica J. Lee 2017-05-02 Longlisted for the 2018 Frank Hegyi Award for Emerging Authors “Jessica J. Lee is a writer of rare and exhilarating grace. In *Turning*, she sounds the depths of lakes and her own life, never flinching from darkness, surfacing to fresh understandings of her place in the welter of natural and human history. A beautiful, moody, bracing debut.” —Kate Harris, award-winning author of *Lands of Lost Borders* Through the heat of summer to the frozen depths of winter, Lee traces her journey swimming through 52 lakes in a single year, swimming through fear and heartbreak to find her place in the world Jessica J. Lee swims through all four seasons and especially loves the winter. "I long for the ice. The sharp cut of freezing water on my feet. The immeasurable black of the lake at its coldest. Swimming then means cold, and pain, and elation." At the age of twenty-eight, Jessica, who grew up in Canada and lived in England, finds herself in Berlin. Alone. Lonely, with lowered spirits thanks to some family history and a broken heart, she is there, ostensibly, to write a thesis. And though that is what she does daily, what increasingly occupies her is swimming. So she makes a decision that she believes will win her back her confidence and independence: she will swim fifty-two of the lakes around Berlin, no matter what the weather or season. She is aware that this particular landscape is not without its own ghosts and history. This is the story of a beautiful obsession: of the thrill of a still, turquoise lake, of cracking the ice before submerging, of floating under blue skies, of tangled weeds and murkiness, of cool, fresh, spring swimming—of facing past fears of near-

drowning and of breaking free. When she completes her year of swimming, Jessica finds she has new strength, and she has also found friends and has gained some understanding of how the landscape both haunts and holds us. This book is for everyone who loves swimming, who wishes they could push themselves beyond caution, who understands the deep pleasure of using the body's strength, who knows what it is to abandon all thought and float home to the surface.

Waterlog Roger Deakin 2000 Roger Deakin set out in 1996 to swim through the British Isles. The result a uniquely personal view of an island race and a people with a deep affinity for water. From the sea, from rock pools, from rivers and streams, tarns, lakes, lochs, ponds, lidos, swimming pools and spas, from fens, dykes, moats, aqueducts, waterfalls, flooded quarries, even canals, Deakin gains a fascinating perspective on modern Britain. Detained by water bailiffs in Winchester, intercepted in the Fowey estuary by coastguards, mistaken for a suicide on Camber sands, confronting the Corryvreckan whirlpool in the Hebrides, he discovers just how much of an outsider the native swimmer is to his landlocked, fully-dressed fellow citizens. Encompassing cultural history, autobiography, travel writing and natural history, *Waterlog* is a personal journey, a bold assertion of the native swimmer's right to

roam, and an unforgettable celebration of the magic of water.

The Great Swim Gavin Mortimer 2009-05-26 The dramatic story of the four courageous female swimmers who captivated the world in the summer of 1926. Despite the tensions of a world still recovering from World War I, during the summer of 1926, the story that enthralled the public revolved around four young American swimmers-Gertrude Ederle, Mille Gade, Lillian Cannon, and Clarabelle Barrett-who battled the weather, each other, and considerable odds to become the first woman to conquer the brutal waters of the English Channel. The popular East Coast tabloids from New York to Boston engaged in rivalries nearly as competitive as the swimmers themselves; each backed a favorite and made certain their girl-in bathing attire-was plastered across their daily editions. Just as Seabiscuit, the little horse with the big heart, would bring the nation to a near standstill when he battled his rival War Admiral in 1938, this quartet of women held the attention of millions of people on both sides of the Atlantic for an entire summer. Gavin Mortimer uses primary sources, diaries, interviews with relatives, and contemporary reports to paint an unforgettable portrait of a competition that changed the way the world looked at women, both in sport and society. More than an underdog story, The Great Swim is a tale of perseverance, strength, and sheer force of will. A portrait of an era that is as evocative as Cinderella Man, this is a memorable story of America and Americans in the 1920s.

Pondlife Al Alvarez 2013-02-14 The ponds of Hampstead Heath are small oases; fragments of wild nature nestled in the heart of north-west London. For the best part of his life Al Alvarez – poet, critic, novelist, rock-climber and poker player – has swum in them almost

daily. An athlete in his youth, Alvarez, now in his eighties, chronicles what it is to grow old with humour and fierce honesty – from his relentlessly nagging ankle which makes daily life a struggle, to infuriating bureaucratic battles with the council to keep his disabled person's Blue Badge, the devastating effects of a stroke, and the salvation he finds in the three Ss – Swimming, Sex and Sleep. As Alvarez swims in the ponds he considers how it feels when you begin to miss that person you used to be – to miss yourself. Swimming is his own private form of protest against the onslaught of time; proof to others, and himself, that he's not yet beaten. By turns funny, poetic and indignant, *Pondlife* is a meditation on love, the importance of life's small pleasures and, above all, a lesson in not going gently in to that good night.

The Wild Places Robert Macfarlane 2008-06-24 From the author of *The Old Ways* and *Underland*, an "eloquent (and compulsively readable) reminder that, though we're laying waste the world, nature still holds sway over much of the earth's surface." --Bill McKibben Winner of the Boardman Tasker Prize for Mountain Literature and a finalist for the Orion Book Award Are there any genuinely wild places left in Britain and Ireland? That is the question that Robert Macfarlane poses to himself as he embarks on a series of breathtaking journeys through some of the archipelago's most remarkable landscapes. He climbs, walks, and swims by day and spends his nights sleeping on cliff-tops and in ancient meadows and wildwoods. With elegance and passion he entwines history, memory, and landscape in a

bewitching evocation of wildness and its vital importance.

I Found My Tribe Ruth Fitzmaurice 2018-03-06 A transformative, euphoric memoir about finding solace in the unexpected for readers of H is for Hawk, It's Not Yet Dark, and When Breath Becomes Air. Ruth's tribe are her lively children and her filmmaker and author husband Simon Fitzmaurice who has ALS and can only communicate with his eyes. Ruth's other "tribe" are the friends who gather at the cove in Greystones, Co. Wicklow, and regularly throw themselves into the freezing cold water, just for kicks. The Tragic Wives' Swimming Club, as they jokingly call themselves, meet to cope with the extreme challenges life puts in their way, not to mention the monster waves rolling over the horizon. Swimming is just one of the daily coping strategies as Ruth fights to preserve the strong but now silent

connection with her husband. As she tells the story of their marriage, from diagnosis to their long-standing precarious situation, Ruth also charts her passion for swimming in the wild Irish Sea--culminating in a midnight swim under the full moon on her wedding anniversary. An invocation to all of us to love as hard as we can, and live even harder, *I Found My Tribe* is an urgent and uplifting letter to a husband, family, friends, the natural world, and the brightness of life.

Floating Joe Minihane 2017-04-18 'Lovely, lively, passionate... a celebration of nature's ability to inspire healing and joy' Robert MacFarlane In the breaststrokes of Roger Deakin's *Waterlog*, this is the story of one man's search for himself across the breadth of Britain's wild waters. Joe Minihane became obsessed with wild swimming and the way it soothed his anxiety, developing a new-found passion by following the example of naturalist Deakin in his own swimming memoir. While fighting the currents - sometimes treading water Minihane swims to explore, to forget, to find the path back to himself through nature, and in the water under an open sky he finally begins to find his peace. *Floating* is a remarkable memoir about a love of swimming and a deep appreciation for the British countryside: it captures Minihane's struggle to understand himself, and the healing properties of wild stretches of water. From Hampstead to Yorkshire, Dorset to Jura, the Isles of Scilly to Wales, Minihane uses *Waterlog* to trace his own path by diving right in.

Swimming with Seals Victoria Whitworth 2017-04-20 This is a memoir of intense physical and personal experience, exploring how swimming with seals, gulls and orcas in the cold waters off Orkney provided Victoria Whitworth with an escape from a series of life crises and helped her to deal with intolerable loss. It is also a treasure chest of history and myth, local folklore and archaeological clues, giving us tantalising glimpses of Pictish and Viking men and women, those people lost to history, whose long-hidden secrets are sometimes yielded up by the land and sea.

Wildwood Roger Deakin 2009-01-06 Here, published for the first time in the United States, is the last book by Roger Deakin, famed British nature writer and icon of the environmentalist movement. In Deakin's glorious meditation on wood, the "fifth element" -- as it exists in nature, in our culture, and in our souls -- the reader accompanies Deakin through the woods of Britain, Europe, Kazakhstan, and Australia in search of what lies behind man's profound and enduring connection with trees. Deakin lives in forest shacks, goes "coppicing" in Suffolk, swims beneath the walnut trees of the Haut-Languedoc, and hunts bushplums with Aboriginal women in the outback. Along the way, he ferrets out the mysteries of woods, detailing the life stories of the timber beams composing his Elizabethan house and searching

for the origin of the apple. As the world's forests are whittled away, Deakin's sparkling prose evokes woodlands anarchic with life, rendering each tree as an individual, living being. At once a traveler's tale and a splendid work of natural history, *Wildwood* reveals, amid the world's marvelous diversity, that which is universal in human experience.

The Third Thing Ralph Kiggell 2013 "In this book, masterly woodcuts spread across the pages to guide us visually through the many aspects of that cycle of water described in words. Layers of translucent colour suggest the movement of water across swimmers, human and animal. There are driving shafts of rain, frozen crystals, rivers which support teeming life on boats, clouds heavy with impending downpours. All derive from D.H. Lawrence's wonder at the unknowable third thing that, with an oxygen atom and two of hydrogen, completes the mystery of water ... Ralph Kiggell has chosen a wide sweep of writing as inspiration for his imagery to convey the variety of ways in which water provides life and is life for all on earth"--Old Stile Press website, viewed March 2, 2015.

Possum Living Dolly Freed 2010-01-12 In 1978, at the age of eighteen and with a seventh-grade education, Dolly Freed wrote *Possum Living*, chronicling the five years she and her father lived off the land on a half-acre lot outside of Philadelphia.

The Story of Swimming Susie Parr 2011 A new wave of passion has emerged for open water swimming, but it is a British tradition that has deep roots. Susie Parr takes a chronological look at the social history of swimming from the earliest Roman written accounts, stories of Viking invaders, medieval and Elizabethan literature, medicinal seabathing in 18th century and the rise of Georgian and Regency watering holes such as Brighton. She follows the line

of literary swimmers from Shelley to Murdoch and charts the boom of the British seaside resort in a fascinating and hugely enjoyable journey.

The Tail of Emily Windsnap Liz Kessler 2010-05-11 A young girl learns she's half mermaid and plunges into a scheme to reunite with her father in this entrancing, satisfying tale that beckons readers far below the waves. For as long as she can remember, twelve-year-old Emily Windsnap has lived on a boat. And, oddly enough, for just as long, her mother has seemed anxious to keep Emily away from the water. But when Mom finally agrees to let her take swimming lessons, Emily makes a startling discovery — about her own identity, the mysterious father she's never met, and the thrilling possibilities and perils shimmering deep below the water's surface. With a sure sense of suspense and richly imaginative details, first-time author Liz Kessler lures us into a glorious undersea world where mermaids study shipwrecks at school and Neptune rules with an iron trident — an enchanting fantasy about family secrets, loyal friendship, and the convention-defying power of love.

The Rings of Saturn W. G. Sebald 2016-11-08 "The book is like a dream you want to last forever" (Roberta Silman, *The New York Times Book Review*), now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's "Anatomy Lesson," the natural history of the herring, the massive bombings of WWII, the

dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's *The Emigrants* (New Directions, 1996) was hailed by Susan Sontag as an "astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims *The Rings of Saturn* "an even more inventive work than its predecessor, *The Emigrants*."

Floating Joe Minihane 2018-04-05 This is one man's journey, swimming across Britain's countryside and immersing in the sometimes icy waters while coming to terms with something more challenging than the choppy waters of the English Channel. As Joe Minihane comes up for air, he discovers that swimming is both a joyous activity and a voyage into oneself. Minihane became obsessed with wild swimming and its restorative qualities, developing a new-found passion by following the example of naturalist Roger Deakin in his classic *Waterlog*. While fighting the currents, sometimes treading water, Minihane begins to confront the buried issues in his life. Along the way, he rekindles old friendships and forges new ones, and after an unexpected setback discovers that he has already gained enough strength to continue his recovery on dry land. Both strange and beautiful, the wild water puts him in touch with nature and himself. *Floating* is a remarkable memoir about a passion for swimming and nature. Moving from darkness into light, it is as intense and moving as it is lyrical and generous. It captures in memorable detail Minihane's struggle to understand his life, to move forward and, steeped in the anti-authoritarian and naturalistic spirit of Deakin, celebrates the joy of taking time to enjoy life. From Hampstead to Yorkshire, and Dorset to Jura, from the Isles of Scilly to Wales, Minihane has written a love

letter to wild stretches of water. We swim with him through ponds and lakes, rivers and canals, lodes and marshes, even the ice-cold sea and come out of the water healthier.

Landmarks Robert Macfarlane 2015-03-05 SHORTLISTED FOR THE SAMUEL JOHNSON PRIZE 2015 SHORTLISTED FOR THE WAINWRIGHT PRIZE 2016 Landmarks is Robert Macfarlane's joyous meditation on words, landscape and the relationship between the two. Words are grained into our landscapes, and landscapes are grained into our words. Landmarks is about the power of language to shape our sense of place. It is a field guide to the literature of nature, and a glossary containing thousands of remarkable words used in England, Scotland, Ireland and Wales to describe land, nature and weather. Travelling from Cumbria to the Cairngorms, and exploring the landscapes of Roger Deakin, J. A. Baker, Nan Shepherd and others, Robert Macfarlane shows that language, well used, is a keen way of knowing landscape, and a vital means of coming to love it. Praise for Robert Macfarlane: 'He has a poet's eye and a prose style that will make many a novelist burn with envy' John Banville, Observer "I'll read anything Macfarlane writes" David Mitchell, Independent 'Every movement needs stars. In [Macfarlane] we surely have one, burning brighter with each book.' Telegraph '[Macfarlane] is a godfather of a cultural moment' Sunday Times Holloway Robert Macfarlane 2014 A beautiful piece of nature writing, illustrated with spectacular etchings of woodland scenes.

Leap In Alexandra Heminsley 2017-07-04 At once inspiring, hilarious, and honest, the new book from Alexandra Heminsley chronicles her endeavor to tackle a whole new element, and the ensuing challenges and joys of open water swimming. "It's a meditative act," they said.

But it was far from meditative for Alexandra Heminsley when yet another wave slammed into her face. It was survival. When she laced up her shoes in *Running Like a Girl*, all she had to do to become a runner was to get out there and run. But swimming was something else entirely. The water was all-consuming, confusing her every move, sabotaging every breath. Determined, Alexandra would learn to adapt, find new strengths, and learn to work with the water. She does not want to stand on the beach looking at the sea any longer. She wants to leap in. In doing so she will learn not just how to accept herself, but how to accept what lay beyond. Soon, she will be able to see water, anywhere in the world and sense not fear but adventure. She will dive into water as she hopes to dive into life. And it has nothing to do with being “sporty” or being the correct shape for a swimsuit. Open water swimming is currently one of the fastest growing sports in the world, and marathon swimming is the only sport where men and women do not race in separate categories. The water welcomes all who are willing and prepared to take part, and as Alexandra shows in her wondrous and funny book, not knowing how to do something is not necessarily a weakness—strength lies within the desire to learn. The time is now to leap in, and revel in what you thought was beyond you, discovering that it was only ever you holding you back.

Waterlog: A Swimmers Journey Through Britain Roger Deakin 2021-05-25 A Mother Jones' Best Book of the Year "A beautiful ode to the act of swimming outdoors. . . . Deakin's insistence on wild swimming for all is really an insistence on a better ecosystem for all."

—The Atlantic A masterpiece of nature writing, Roger Deakin's *Waterlog* is a fascinating and inspiring journey into the aquatic world that surrounds us. In an attempt to discover his island nation from a new perspective, Roger Deakin embarks from his home in Suffolk to swim Britain—the seas, rivers, lakes, ponds, pools, streams, lochs, moats, and quarries. Through the watery capillary network that braids itself throughout the country, Deakin immerses himself in the natural habitats of fish, amphibians, mammals, and birds. And as he navigates towns, private property, and sometimes dangerous waters and inclement weather, Deakin finds himself in precarious situations: he's detained by bailiffs in Winchester, intercepted by the coast guard at the mouth of a river, and mistaken for a dead body on a beach. The result of this surprising journey is a deep dive into modern Britain, especially its wild places. With enchanting descriptions of natural landscapes, and a deep well of humanity, boundless humor, and unbridled joy, Deakin beckons us to wilder waters and inspires us to connect to the larger world in a most unexpected way. Thrilling, vivid, and lyrical, *Waterlog* is a fully immersive adventure—a remarkable personal quest, a bold assertion of the swimmer's right

to roam, and an unforgettable celebration of the magic of water.

Notes from Walnut Tree Farm Roger Deakin 2008 From the author of the acclaimed and much-loved Waterlog and Wildwood. For the last six years of his life, Roger Deakin kept notebooks in which he wrote his daily thoughts, impressions, feelings and observations. Discursive, personal and often impassioned, they reveal the way he saw the world, whether it be observing the teeming ecosystem that was Walnut Tree Farm, thinking about the wider environment, walking in his fields or on Mellis Common, or quietly contemplating his past and present life. Notes From Walnut Tree Farm collects the very best of these writings, capturing Roger's extraordinary, restless curiosity into the natural and human worlds, his love of literature and music, his knack for making unusual and apposite connections, and of course his distinct and subversive charm and humour. Together they cohere to present a

passionate, engaged and - in spite of the worst pressures of contemporary life - optimistic view of our changing world.

Things We Didn't Talk About When I Was a Girl: A Memoir Jeannie Vanasco 2019-10-01 A New York Times Editors' Choice and Best Book of the Year at TIME, Esquire, Amazon, Kirkus, and Electric Literature Jeannie Vanasco has had the same nightmare since she was a teenager. It is always about him: one of her closest high school friends, a boy named Mark. A boy who raped her. When her nightmares worsen, Jeannie decides—after fourteen years of silence—to reach out to Mark. He agrees to talk on the record and meet in person. Jeannie details her friendship with Mark before and after the assault, asking the brave and urgent question: Is it possible for a good person to commit a terrible act? Jeannie interviews Mark, exploring how rape has impacted his life as well as her own. Unflinching and courageous, *Things We Didn't Talk About When I Was a Girl* is part memoir, part true crime record, and part testament to the strength of female friendships—a recounting and reckoning that will inspire us to ask harder questions, push towards deeper understanding, and continue a necessary and long overdue conversation.

Roger Deakins 2021-09 Portraits and landscapes from the cinematographer famed for his work with Sam Mendes and the Coen brothers This is the first monograph by the legendary Oscar-winning cinematographer Sir Roger Deakins (born 1949), best known for his collaborations with directors such as the Coen brothers, Sam Mendes and Denis Villeneuve. It includes previously unpublished black-and-white photographs spanning five decades, from 1971 to the present. After graduating from college Deakins spent a year photographing life in

rural North Devon, in Southwest England, on a commission for the Beaford Arts Centre; these images are gathered here for the first time and attest to a keenly ironic English sensibility, while also documenting a vanished postwar Britain. A second suite of images expresses Deakins' love of the seaside. Traveling for his cinematic work has allowed Deakins to photograph landscapes all over the world; in this third group of images, that same irony remains evident.

Signs of Water Robert Boschman 2022-02-15 Water is more important than ever before. It is increasingly controversial in direct proportion to its scarcity, demand, neglect, and commodification. There is no place on the planet where water is not, or will not be, of critical concern. Signs of Water brings together scholars and experts from five continents in an interdisciplinary exploration of the theoretical approaches, social and political issues, and anthropogenic hazards surrounding water in the twenty-first century. From the kitchen taps of Detroit, Michigan to the water-harvesting infrastructure of Tokyo, from the Upper Xingu Basin of Brazil to the Sunda Deep of the Java Trench, these essays flow through time and place to uncover the many issues surrounding water today. Asking key theoretical questions, exposing threats to vital water systems, and proposing paths forward, Signs of Water brims with histories, ontologies, and political struggles. Bringing together local experiences to tell a global story, it centers water as history, as politics, and as a human right.

Haunts of the Black Masseur Charles Sprawson 2012-08-29 In a masterful work of cultural history, Charles Sprawson, himself an obsessional swimmer and fluent diver, explores the meaning that different cultures have attached to water, and the search for the springs of

classical antiquity. In nineteenth-century England bathing was thought to be an instrument of social and moral reform, while in Germany and America swimming came to signify escape. For the Japanese the swimmer became an expression of samurai pride and nationalism. Sprawson gives us fascinating glimpses of the great swimming heroes: Byron leaping dramatically into the surf at Shelley's beach funeral; Rupert Brooke swimming naked with Virginia Woolf, the dark water "smelling of mint and mud"; Hart Crane swallow-diving to his death in the Bay of Mexico; Edgar Allan Poe's lone and mysterious river-swims; Leander, Webb, Weissmuller, and a host of others. Informed by the literature of Swinburne, Goethe, Scott Fitzgerald, and Yukio Mishima; the films of Riefenstahl and Vigo; the Hollywood "swimming musicals" of the 1930s; and delving in and out of Olympic history, *Haunts of the Black Masseur* is an enthralling assessment of man—body submerged, self-absorbed. It is quite simply the best celebration of swimming ever written, even as it explores aspects of culture in a heretofore unimagined way.

Underland: A Deep Time Journey Robert Macfarlane 2019-06-04 National Bestseller • New York Times “100 Notable Books of the Year” • NPR “Favorite Books of 2019” • Guardian “100 Best Books of the 21st Century” • Winner of the National Outdoor Book Award From the best-selling, award-winning author of Landmarks and The Old Ways, a haunting voyage into the planet’s past and future. Hailed as “the great nature writer of this generation” (Wall Street Journal), Robert Macfarlane is the celebrated author of books about the intersections of the human and the natural realms. In Underland, he delivers his masterpiece: an epic exploration of the Earth’s underworlds as they exist in myth, literature, memory, and the land itself. In this highly anticipated sequel to his international bestseller The Old Ways, Macfarlane takes us on an extraordinary journey into our relationship with darkness, burial, and what lies beneath the surface of both place and mind. Traveling through “deep time”—the dizzying expanses of geologic time that stretch away from the present—he moves from the birth of the universe to a post-human future, from the prehistoric art of Norwegian sea caves to the blue depths of the Greenland ice cap, from Bronze Age funeral chambers to the catacomb labyrinth below Paris, and from the underground fungal networks through which trees communicate to a deep-sunk “hiding place” where nuclear waste will be stored for 100,000 years to come. Woven through Macfarlane’s own travels are the unforgettable stories of descents into the underland made across history by explorers, artists, cavers, divers, mourners, dreamers, and murderers, all of whom have been drawn for different reasons to seek what Cormac McCarthy calls “the awful darkness within the world.” Global in

its geography and written with great lyricism and power, *Underland* speaks powerfully to our present moment. Taking a deep-time view of our planet, Macfarlane here asks a vital and unsettling question: “Are we being good ancestors to the future Earth?” *Underland* marks a new turn in Macfarlane’s long-term mapping of the relations of landscape and the human heart. From its remarkable opening pages to its deeply moving conclusion, it is a journey into wonder, loss, fear, and hope. At once ancient and urgent, this is a book that will change the way you see the world.

Swimming Studies Leanne Shapton 2012-07-05 Winner of the 2012 National Book Critics Circle Award, *Autobiography Swimming Studies* is a brilliantly original, meditative memoir that explores the worlds of competitive and recreational swimming. From her training for the Olympic trials as a teenager to enjoying pools and beaches around the world as an adult, Leanne Shapton offers a fascinating glimpse into the private, often solitary, realm of swimming. Her spare and elegant writing reveals an intimate narrative of suburban adolescence, spent underwater in a discipline that continues to inspire Shapton’s work as an artist and author. Her illustrations throughout the book offer an intuitive perspective on the landscapes and imagery of the sport. Shapton’s emphasis is on the smaller moments of athletic pursuit rather than its triumphs. For the accomplished athlete, aspiring amateur, or habitual practicer, this remarkable work of written and visual sketches propels the reader

through a beautifully personal and universally appealing exercise in reflection.
